PROFESSIONAL SUMMARY

Results-driven React Native Developer with proven experience delivering cross-platform mobile applications across iOS and Android. Proven track record of architecting scalable, high-performance, production-ready solutions with end-to-end app lifecycle ownership — from design and development to store deployment. Adept at integrating third-party APIs, implementing robust state management, and optimizing user experience. Collaborative team player with strong debugging, problem-solving, and Agile delivery skills.

PROFESSIONAL EXPERIENCE

React Native Developer | WingsTech Solutions Pvt Ltd, Rajkot, India

September 2022 – April 2026

- Architected and deployed 5+ production-grade mobile applications serving 100K+ users across iOS and Android, consistently maintaining 4.5+ star store ratings.
- Spearheaded app performance optimization through code splitting, lazy loading, and efficient state management — reducing load times by 40% and boosting user retention by 25%.
- Integrated 20+ third-party APIs and SDKs including payment gateways, push notifications, analytics platforms, and social authentication to deliver rich, feature-complete applications.
- Implemented scalable state management solutions using Redux, Zustand, and React Hook Form, improving code maintainability and slashing bug rates by 30%.
- Managed end-to-end CI/CD pipeline and app store release processes for Google Play Store and Apple App Store, achieving zero-downtime production deployments.
- Conducted rigorous code reviews and championed testing best practices, reducing production bug count by 35% and elevating overall code quality.
- Collaborated with cross-functional teams including designers, backend engineers, and product managers in Agile/Scrum sprints to deliver features on schedule.
- Mentored junior developers on React Native architecture patterns and industry best practices, accelerating team capability and knowledge sharing.

KEY PROJECTS

MyMints App (2024–2026)

E-commerce & Rewards Platform | Android & iOS

Android: <https://play.google.com/store/apps/details?id=com.mymints.app>

iOS: <https://apps.apple.com/in/app/mymintsshop-earn/id6747031387>

- Built a full-featured shopping and rewards application with secure payment integration, real-time order tracking, and 15+ seamlessly animated screens.
- Achieved 1,000+ downloads within initial launch window on both Google Play Store and Apple App Store.

Clientracker App (2023–2026)

Business Intelligence & Analytics | Android & iOS

Android: <https://play.google.com/store/apps/details?id=com.clientracker.app&pli=1>

iOS: <https://apps.apple.com/us/app/clientracker/id6743198671>

- Developed a comprehensive data tracking and reporting system with interactive dashboards, real-time sync, and offline-first architecture for uninterrupted performance.

Big Toe Daily Mobility (2022–2023)

Fitness & Wellness | Android

Android: https://play.google.com/store/apps/details?id=com.bigtoesnc.app&hl=en_IN

- Created a fitness tracking application with video streaming, structured workout plans, and progress monitoring to drive daily user engagement.

Resident Connect (2022–2023)

Community Management Platform | Android & iOS

Android: <https://play.google.com/store/apps/details?id=com.residentconnect.recoapp>

iOS: <https://apps.apple.com/us/app/reco-by-resident-connect/id6450892720>

- Built a real-time community platform enabling resident communication, event coordination, and building management with live messaging capabilities.

Airbrush App (2023–2026)

Event Management | Android

Android: <https://play.google.com/store/apps/details?id=com.airbrushevents.app&pli=1>

- Developed the Teamhub Airbrush Events platform for seamless event coordination, artist management, and scheduling workflows.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript

Mobile Development: React Native

State Management: Redux (React-Redux), Zustand, React Hook Form, Context API

Tools & Platforms: Git, GitHub, Xcode, Android Studio, VS Code, Figma, Firebase, GitHub Desktop

App Management: App Store Deployment (Google Play & Apple App Store), Version Handling, API Integration, Library Management

Project Management: Jira, Trello, Agile/Scrum, Code Reviews, Technical Documentation

Development Practices: CI/CD, RESTful API Integration, Performance Optimization, Cross-platform Development

Operating Systems: Windows, macOS

EDUCATION

Integrated Master of Computer Applications (MCA)

Marwadi University, Rajkot, Gujarat | 2017 – 2022 | CGPA: 7.78/10

- Relevant Coursework: Data Structures, Algorithms, Mobile Application Development, Software Engineering

LANGUAGES

English (Fluent) | Hindi (Fluent) | Gujarati (Native)

KEY ACHIEVEMENTS

- Delivered 5+ production applications with zero critical post-release bugs across all deployments.
- Reduced app crash rates by 45% through implementation of comprehensive error handling and real-time monitoring.
- Maintained 99.9% uptime across all deployed applications through proactive optimization strategies.
